Overview

Cabinet Installation Tool is furniture hardware used in cabinet and furniture manufacturing, selected by load, material, finish, and fit. The notes below cover construction, selection factors, sizes, materials, finishes, application fit, and installation for OEM production.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Product Form:** Sheet / pad Confirm the exact value on the order datasheet before production.
- **Size:** 1 kg pack Confirm the exact value on the order datasheet before production.
- **Working Time:** Fast set Confirm the exact value on the order datasheet before production.
- **Compatible Materials:** PVC / ABS edge banding Confirm the exact value on the order datasheet before production.
- **Installation Use:** Handle drilling Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Brushed Nickel, Polished Brass, Champagne Bronze, Gold and Satin Chrome Confirm finish samples when color matching matters.
- **Application fit:** Wall Cabinets, Base Cabinets, Tall Cabinets and Shoe Cabinets Match the product to the furniture use case, not only to the part name.

Cabinet Installation Tool

Key Specifications

Product Form	Sheet / pad
Size	1 kg pack
Working Time	Fast set
Compatible Materials	PVC / ABS edge banding
Installation Use	Handle drilling
Storage / Packaging	Retail polybag

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Load and usage requirement
- Material for the environment and price point
- Finish for appearance and corrosion resistance
- Mounting and dimensional fit

Material Options

Choose the material for the load, corrosion exposure, and target price of the program.

Application Fit

Wall Cabinets

For this application, cabinet installation tool is specified for the typical load, environment, and usage of this application.

Base Cabinets

For this application, cabinet installation tool is specified for the typical load, environment, and usage of this application.

Tall Cabinets

For this application, cabinet installation tool is specified for the typical load, environment, and usage of this application.

Shoe Cabinets

For this application, cabinet installation tool is specified for the typical load, environment, and usage of this application.

TV Cabinets

For this application, cabinet installation tool is specified for the typical load, environment, and usage of this application.

Bookcases

For this application, cabinet installation tool is specified for the typical load, environment, and usage of this application.
