Overview

Cover Cap is furniture hardware used in cabinet and furniture manufacturing, selected by load, material, finish, and fit. The notes below cover construction, selection factors, sizes, materials, finishes, application fit, and installation for OEM production.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Product Form:** Sheet / pad Confirm the exact value on the order datasheet before production.
- **Size:** 50 g Confirm the exact value on the order datasheet before production.
- **Working Time:** Immediate mechanical fixing Confirm the exact value on the order datasheet before production.
- **Compatible Materials:** Metal and glass Confirm the exact value on the order datasheet before production.
- **Installation Use:** Cabinet assembly Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Aged Brass, Black Nickel, Oil Rubbed Bronze, Chrome and White Confirm finish samples when color matching matters.
- **Application fit:** Wall Cabinets, Base Cabinets, Tall Cabinets and Shoe Cabinets Match the product to the furniture use case, not only to the part name.

Cover Cap

Key Specifications

Product Form	Sheet / pad
Size	50 g
Working Time	Immediate mechanical fixing
Compatible Materials	Metal and glass
Installation Use	Cabinet assembly
Storage / Packaging	Moisture-sealed pack

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Load and usage requirement
- Material for the environment and price point
- Finish for appearance and corrosion resistance
- Mounting and dimensional fit

Material Options

Choose the material for the load, corrosion exposure, and target price of the program.

- [Stainless Steel Cover Cap](#)
- [Carbon Steel Cover Cap](#)
- [Zinc Alloy Cover Cap](#)
- [Aluminum Cover Cap](#)
- [Brass Cover Cap](#)
- [Copper Cover Cap](#)

Finish Options

Finish affects appearance and corrosion performance; match it to the furniture range and market.

Application Fit

Wall Cabinets

For this application, cover cap is specified for the typical load, environment, and usage of this application.

Base Cabinets

For this application, cover cap is specified for the typical load, environment, and usage of this application.

Tall Cabinets

For this application, cover cap is specified for the typical load, environment, and usage of this application.

Shoe Cabinets

For this application, cover cap is specified for the typical load, environment, and usage of this application.

TV Cabinets

For this application, cover cap is specified for the typical load, environment, and usage of this application.

Bookcases

For this application, cover cap is specified for the typical load, environment, and usage of this application.
