Overview

Felt Pad is furniture hardware used in cabinet and furniture manufacturing, selected by load, material, finish, and fit. This page summarizes how to specify it for volume furniture and cabinet manufacturing, including the dimensions and options that matter most to buyers.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Product Form:** Hot-melt stick Confirm the exact value on the order datasheet before production.
- **Size:** 100 pcs pack Confirm the exact value on the order datasheet before production.
- **Working Time:** 5-10 min open time Confirm the exact value on the order datasheet before production.
- **Compatible Materials:** MDF / particle board Confirm the exact value on the order datasheet before production.
- **Installation Use:** Handle drilling Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Anodized Aluminum, White, Gold, Copper and Bronze Confirm finish samples when color matching matters.
- **Application fit:** Bedroom Furniture, Living Room Furniture, Office Furniture and Hotel Furniture Match the product to the furniture use case, not only to the part name.

Felt Pad

Key Specifications

Product Form	Hot-melt stick
Size	100 pcs pack
Working Time	5-10 min open time
Compatible Materials	MDF / particle board
Installation Use	Handle drilling
Storage / Packaging	Bulk carton

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Load and usage requirement
- Material for the environment and price point
- Finish for appearance and corrosion resistance
- Mounting and dimensional fit

Material Options

Choose the material for the load, corrosion exposure, and target price of the program.

Application Fit

Bedroom Furniture

For this application, felt pad is specified for the typical load, environment, and usage of this application.

Living Room Furniture

For this application, felt pad is specified for the typical load, environment, and usage of this application.

Office Furniture

For this application, felt pad is specified for high-frequency use, file-drawer loads, and central locking.

Hotel Furniture

For this application, felt pad is specified for the typical load, environment, and usage of this application.

Apartment Furniture

For this application, felt pad is specified for the typical load, environment, and usage of this application.

School Furniture

For this application, felt pad is specified for the typical load, environment, and usage of this application.
