Overview

Finishing Product is furniture hardware used in cabinet and furniture manufacturing, selected by load, material, finish, and fit. The notes below cover construction, selection factors, sizes, materials, finishes, application fit, and installation for OEM production.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Product Form:** Hot-melt stick Confirm the exact value on the order datasheet before production.
- **Size:** 250 ml Confirm the exact value on the order datasheet before production.
- **Working Time:** 10-20 min open time Confirm the exact value on the order datasheet before production.
- **Compatible Materials:** Laminate surfaces Confirm the exact value on the order datasheet before production.
- **Installation Use:** Cabinet assembly Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Brushed Gold, Bronze, Copper, Oil Rubbed Bronze and Galvanized Confirm finish samples when color matching matters.
- **Application fit:** Soft Close Cabinets, Push To Open Cabinets, Heavy Duty Drawers and File Cabinets Match the product to the furniture use case, not only to the part name.

Finishing Product

Key Specifications

Product Form	Hot-melt stick
Size	250 ml
Working Time	10-20 min open time
Compatible Materials	Laminate surfaces
Installation Use	Cabinet assembly
Storage / Packaging	Bulk carton

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Load and usage requirement
- Material for the environment and price point
- Finish for appearance and corrosion resistance
- Mounting and dimensional fit

Material Options

Choose the material for the load, corrosion exposure, and target price of the program.

- [Stainless Steel Finishing Product](#)
- [Carbon Steel Finishing Product](#)
- [Zinc Alloy Finishing Product](#)
- [Aluminum Finishing Product](#)
- [Brass Finishing Product](#)
- [Copper Finishing Product](#)

Finish Options

Finish affects appearance and corrosion performance; match it to the furniture range and market.

- [Brushed Gold Finishing Product](#)
- [Bronze Finishing Product](#)
- [Copper Finishing Product](#)

- [Oil Rubbed Bronze Finishing Product](#)
- [Galvanized Finishing Product](#)
- [Polished Stainless Steel Finishing Product](#)
- [Aged Brass Finishing Product](#)
- [Satin Chrome Finishing Product](#)

Application Fit

[Soft Close Cabinets](#)

For this application, finishing product is specified for the typical load, environment, and usage of this application.

[Push To Open Cabinets](#)

For this application, finishing product is specified for the typical load, environment, and usage of this application.

[Heavy Duty Drawers](#)

For this application, finishing product is specified for the typical load, environment, and usage of this application.

[File Cabinets](#)

For this application, finishing product is specified for full-extension access and load-rated, lockable operation.

[Tool Cabinets](#)

For this application, finishing product is specified for heavy loads, ball-bearing movement, and locking under vibration.

[Pantry Cabinets](#)

For this application, finishing product is specified for the typical load, environment, and usage of this application.

Recommended for These Applications

Buying Notes for OEM Orders

For OEM production, lock the configuration, finish, and packaging, then confirm volume pricing.

Request Bulk Pricing

Send your specification, target market, and order volume. Our engineers reply with pricing, samples, and datasheets — usually within one business day.

Request a Quote

Tell us your project requirement. Our engineers reply within one business day with bulk pricing, datasheets, and installation drawings.
