Overview

Vanity Handle is furniture hardware used in cabinet and furniture manufacturing, selected by load, material, finish, and fit. The notes below cover construction, selection factors, sizes, materials, finishes, application fit, and installation for OEM production.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Center-to-Center:** 224 mm Confirm the exact value on the order datasheet before production.
- **Overall Length:** 180 mm Confirm the exact value on the order datasheet before production.
- **Projection:** 30 mm Confirm the exact value on the order datasheet before production.
- **Grip / Face Width:** 14 mm Confirm the exact value on the order datasheet before production.
- **Screw:** 8-32 machine screw Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Oil Rubbed Bronze, Satin Chrome, Champagne Bronze, White and Gray Confirm finish samples when color matching matters.
- **Application fit:** Tall Cabinets, Shoe Cabinets, TV Cabinets and Bookcases Match the product to the furniture use case, not only to the part name.

Vanity Handle

Key Specifications

Center-to-Center	224 mm
Overall Length	180 mm
Projection	30 mm
Grip / Face Width	14 mm
Screw	8-32 machine screw
Base Material	Ceramic
Finish Options	Champagne bronze / brushed gold / stainless steel

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Load and usage requirement
- Material for the environment and price point
- Finish for appearance and corrosion resistance
- Mounting and dimensional fit

Material Options

Choose the material for the load, corrosion exposure, and target price of the program.

Application Fit

Tall Cabinets

For this application, vanity handle is specified for the typical load, environment, and usage of this application.

Shoe Cabinets

For this application, vanity handle is specified for the typical load, environment, and usage of this application.

TV Cabinets

For this application, vanity handle is specified for the typical load, environment, and usage of this application.

Bookcases

For this application, vanity handle is specified for the typical load, environment, and usage of this application.

Wine Cabinets

For this application, vanity handle is specified for the typical load, environment, and usage of this application.

Laundry Cabinets

For this application, vanity handle is specified for the typical load, environment, and usage of this application.
