Overview

Double Ball Catch keeps a cabinet door closed and aligned, with magnetic, roller, or push-to-open action for handleless designs. This page summarizes how to specify it for volume furniture and cabinet manufacturing, including the dimensions and options that matter most to buyers.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Function:** Magnetic hold Confirm the exact value on the order datasheet before production.
- **Holding Force:** 2-4 kgf Confirm the exact value on the order datasheet before production.
- **Mounting Type:** Recessed mount Confirm the exact value on the order datasheet before production.
- **Body Size:** Adjustable strike plate Confirm the exact value on the order datasheet before production.
- **Material:** Zinc alloy body Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Powder Coated, Matte Black, Champagne Bronze, Antique Brass and Gold Confirm finish samples when color matching matters.
- **Application fit:** Store Fixtures, Restaurant Furniture, Outdoor Furniture and RV Furniture Match the product to the furniture use case, not only to the part name.

Double Ball Catch

Key Specifications

Function	Magnetic hold
Holding Force	2-4 kgf
Mounting Type	Recessed mount
Body Size	Adjustable strike plate
Material	Zinc alloy body
Adjustment	Height-adjustable strike

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Holding force needed for the door size
- Magnetic, roller, push, or touch-latch type
- Surface or concealed mounting
- Adjustment for door alignment

Material Options

Plastic bodies with steel strike plates are standard; stronger magnets for larger doors.

Application Fit

[Store Fixtures](#)

For this application, double ball catch is specified for the typical load, environment, and usage of this application.

[Restaurant Furniture](#)

For this application, double ball catch is specified for the typical load, environment, and usage of this application.

[Outdoor Furniture](#)

For this application, double ball catch is specified for corrosion resistance, stainless options, and weather exposure.

[RV Furniture](#)

For this application, double ball catch is specified for the typical load, environment, and usage of this application.

[Marine Furniture](#)

For this application, double ball catch is specified for the typical load, environment, and usage of this application.

[Flat Pack Furniture](#)

For this application, double ball catch is specified for knock-down assembly, repeatable installation, and packaging efficiency.
