Overview

Push Open System is furniture hardware used in cabinet and furniture manufacturing, selected by load, material, finish, and fit. The notes below cover construction, selection factors, sizes, materials, finishes, application fit, and installation for OEM production.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Function:** Anti-tip restraint Confirm the exact value on the order datasheet before production.
- **Load / Pull Rating:** 20 kg pull resistance Confirm the exact value on the order datasheet before production.
- **Mounting:** Adhesive + screw fixing Confirm the exact value on the order datasheet before production.
- **Adjustment:** Adjustable strap length Confirm the exact value on the order datasheet before production.
- **Material:** Powder-coated steel Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Flat Black, Satin Chrome, Rose Gold, White and Anodized Aluminum Confirm finish samples when color matching matters.
- **Application fit:** Push To Open Cabinets, Heavy Duty Drawers, File Cabinets and Tool Cabinets Match the product to the furniture use case, not only to the part name.

Push Open System

Key Specifications

Function	Anti-tip restraint
Load / Pull Rating	20 kg pull resistance
Mounting	Adhesive + screw fixing
Adjustment	Adjustable strap length
Material	Powder-coated steel
Supplied With	Wall plugs and strap

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Load and usage requirement
- Material for the environment and price point
- Finish for appearance and corrosion resistance
- Mounting and dimensional fit

Material Options

Choose the material for the load, corrosion exposure, and target price of the program.

- [Stainless Steel Push Open System](#)
- [Carbon Steel Push Open System](#)
- [Zinc Alloy Push Open System](#)
- [Aluminum Push Open System](#)
- [Brass Push Open System](#)
- [Copper Push Open System](#)

Finish Options

Finish affects appearance and corrosion performance; match it to the furniture range and market.

- [Flat Black Push Open System](#)
- [Satin Chrome Push Open System](#)
- [Rose Gold Push Open System](#)

- [White Push Open System](#)
- [Anodized Aluminum Push Open System](#)
- [Brushed Gold Push Open System](#)
- [Galvanized Push Open System](#)
- [Gold Push Open System](#)

Application Fit

[Push To Open Cabinets](#)

For this application, push open system is specified for the typical load, environment, and usage of this application.

[Heavy Duty Drawers](#)

For this application, push open system is specified for the typical load, environment, and usage of this application.

[File Cabinets](#)

For this application, push open system is specified for full-extension access and load-rated, lockable operation.

[Tool Cabinets](#)

For this application, push open system is specified for heavy loads, ball-bearing movement, and locking under vibration.

[Pantry Cabinets](#)

For this application, push open system is specified for the typical load, environment, and usage of this application.

[Corner Cabinets](#)

For this application, push open system is specified for the typical load, environment, and usage of this application.

Buying Notes for OEM Orders

For OEM production, lock the configuration, finish, and packaging, then confirm volume pricing.

Request Bulk Pricing

Send your specification, target market, and order volume. Our engineers reply with pricing, samples, and datasheets — usually within one business day.

Request a Quote

Tell us your project requirement. Our engineers reply within one business day with bulk pricing, datasheets, and installation drawings.
