Overview

Aluminum Frame Profile finishes and protects panel edges with a color-matched profile for a clean, durable furniture edge. The notes below cover construction, selection factors, sizes, materials, finishes, application fit, and installation for OEM production.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Panel / Band Width:** 22 mm Confirm the exact value on the order datasheet before production.
- **Thickness:** 0.4 mm Confirm the exact value on the order datasheet before production.
- **Length / Roll:** 100 m roll Confirm the exact value on the order datasheet before production.
- **Material:** ABS Confirm the exact value on the order datasheet before production.
- **Fixing Method:** Clip-on profile Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Satin Nickel, Flat Black, Polished Stainless Steel, Bronze and Copper Confirm finish samples when color matching matters.
- **Application fit:** Woodworking Projects, MDF Cabinets, Plywood Cabinets and Solid Wood Furniture Match the product to the furniture use case, not only to the part name.

Aluminum Frame Profile

Key Specifications

Panel / Band Width	22 mm
Thickness	0.4 mm
Length / Roll	100 m roll
Material	ABS
Fixing Method	Clip-on profile
Finish Match	Matte texture

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Panel thickness and edge profile
- Material match to the panel
- Adhesive or pre-glued type
- Color and finish match

Material Options

PVC, ABS, and melamine bandings to match the panel surface.

- [Stainless Steel Aluminum Frame Profile](#)
- [Carbon Steel Aluminum Frame Profile](#)
- [Zinc Alloy Aluminum Frame Profile](#)
- [Aluminum Aluminum Frame Profile](#)
- [Brass Aluminum Frame Profile](#)
- [Copper Aluminum Frame Profile](#)

Finish Options

Color-matched to the panel decor; wide range of woodgrains and solids.

Application Fit

Woodworking Projects

For this application, aluminum frame profile is specified for the typical load, environment, and usage of this application.

MDF Cabinets

For this application, aluminum frame profile is specified for the typical load, environment, and usage of this application.

Plywood Cabinets

For this application, aluminum frame profile is specified for the typical load, environment, and usage of this application.

Solid Wood Furniture

For this application, aluminum frame profile is specified for the typical load, environment, and usage of this application.

Glass Display Cabinets

For this application, aluminum frame profile is specified for the typical load, environment, and usage of this application.

Aluminum Frame Cabinet Doors

For this application, aluminum frame profile is specified for the typical load, environment, and usage of this application.

Recommended for These Applications
