Overview

Aluminum Profile finishes and protects panel edges with a color-matched profile for a clean, durable furniture edge. This page summarizes how to specify it for volume furniture and cabinet manufacturing, including the dimensions and options that matter most to buyers.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Panel / Band Width:** 18 mm Confirm the exact value on the order datasheet before production.
- **Thickness:** 0.8 mm Confirm the exact value on the order datasheet before production.
- **Length / Roll:** 50 m roll Confirm the exact value on the order datasheet before production.
- **Material:** PVC Confirm the exact value on the order datasheet before production.
- **Fixing Method:** Screw-fixed trim Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Brushed Brass, Oil Rubbed Bronze, Brushed Nickel, Pewter and Matte Black Confirm finish samples when color matching matters.
- **Application fit:** Shoe Cabinets, TV Cabinets, Bookcases and Wine Cabinets Match the product to the furniture use case, not only to the part name.

Aluminum Profile

Key Specifications

Panel / Band Width	18 mm
Thickness	0.8 mm
Length / Roll	50 m roll
Material	PVC
Fixing Method	Screw-fixed trim
Finish Match	Woodgrain

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Panel thickness and edge profile
- Material match to the panel
- Adhesive or pre-glued type
- Color and finish match

Material Options

PVC, ABS, and melamine bandings to match the panel surface.

Application Fit

Shoe Cabinets

For this application, aluminum profile is specified for the typical load, environment, and usage of this application.

TV Cabinets

For this application, aluminum profile is specified for the typical load, environment, and usage of this application.

Bookcases

For this application, aluminum profile is specified for the typical load, environment, and usage of this application.

Wine Cabinets

For this application, aluminum profile is specified for the typical load, environment, and usage of this application.

Laundry Cabinets

For this application, aluminum profile is specified for the typical load, environment, and usage of this application.

Garage Storage Cabinets

For this application, aluminum profile is specified for the typical load, environment, and usage of this application.
