Overview

Glass Door Frame Profile finishes and protects panel edges with a color-matched profile for a clean, durable furniture edge. This page summarizes how to specify it for volume furniture and cabinet manufacturing, including the dimensions and options that matter most to buyers.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Panel / Band Width:** 32 mm Confirm the exact value on the order datasheet before production.
- **Thickness:** 0.4 mm Confirm the exact value on the order datasheet before production.
- **Length / Roll:** 3.0 m profile Confirm the exact value on the order datasheet before production.
- **Material:** Wood veneer Confirm the exact value on the order datasheet before production.
- **Fixing Method:** Hot-melt glue Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Satin Chrome, Oil Rubbed Bronze, Aged Brass, Gray and Powder Coated Confirm finish samples when color matching matters.
- **Application fit:** Commercial Display Cabinets, Store Fixtures, Restaurant Furniture and Outdoor Furniture Match the product to the furniture use case, not only to the part name.

Glass Door Frame Profile

Key Specifications

Panel / Band Width	32 mm
Thickness	0.4 mm
Length / Roll	3.0 m profile
Material	Wood veneer
Fixing Method	Hot-melt glue
Finish Match	Brushed aluminum

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Panel thickness and edge profile
- Material match to the panel
- Adhesive or pre-glued type
- Color and finish match

Material Options

PVC, ABS, and melamine bandings to match the panel surface.

- [Stainless Steel Glass Door Frame Profile](#)
- [Carbon Steel Glass Door Frame Profile](#)
- [Zinc Alloy Glass Door Frame Profile](#)
- [Aluminum Glass Door Frame Profile](#)
- [Brass Glass Door Frame Profile](#)
- [Copper Glass Door Frame Profile](#)

Finish Options

Color-matched to the panel decor; wide range of woodgrains and solids.

Application Fit

[Commercial Display Cabinets](#)

For this application, glass door frame profile is specified for the typical load, environment, and usage of this application.

[Store Fixtures](#)

For this application, glass door frame profile is specified for the typical load, environment, and usage of this application.

[Restaurant Furniture](#)

For this application, glass door frame profile is specified for the typical load, environment, and usage of this application.

[Outdoor Furniture](#)

For this application, glass door frame profile is specified for corrosion resistance, stainless options, and weather exposure.

[RV Furniture](#)

For this application, glass door frame profile is specified for the typical load, environment, and usage of this application.

[Marine Furniture](#)

For this application, glass door frame profile is specified for the typical load, environment, and usage of this application.
