Overview

Cabinet Deadbolt Lock is a furniture lock that secures cabinet doors, drawers, or sliding panels, available keyed-alike or keyed-different for fleet furniture. This page summarizes how to specify it for volume furniture and cabinet manufacturing, including the dimensions and options that matter most to buyers.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Thread / Diameter:** 7 mm confirmat Confirm the exact value on the order datasheet before production.
- **Length:** 32 mm Confirm the exact value on the order datasheet before production.
- **Head / Drive:** Pozi pan head Confirm the exact value on the order datasheet before production.
- **Pilot Hole:** 4 mm Confirm the exact value on the order datasheet before production.
- **Recommended Panel:** 16-25 mm engineered panels Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Satin Gold, Brushed Nickel, Satin Chrome, Polished Brass and Anodized Aluminum Confirm finish samples when color matching matters.
- **Application fit:** Handleless Cabinets, Soft Close Cabinets, Push To Open Cabinets and Heavy Duty Drawers Match the product to the furniture use case, not only to the part name.

Cabinet Deadbolt Lock

Key Specifications

Thread / Diameter	7 mm confirmat
Length	32 mm
Head / Drive	Pozi pan head
Pilot Hole	4 mm
Recommended Panel	16-25 mm engineered panels
Finish / Coating	Yellow zinc
Packaging	Polybag by furniture SKU

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Lock type: cam lock, drawer lock, sliding-door lock, or central locking
- Cabinet material and panel thickness
- Keyed-alike vs keyed-different for fleets
- Cylinder length and cam reach
- Security level and frequency of use

Material Options

Zinc die-cast bodies with brass cylinders are standard; choose higher-security cylinders for offices and lockers.

Buying Notes for OEM Orders

For office and institutional furniture, decide keyed-alike vs keyed-different early and order master-key sets where needed.

Related Questions

These questions are pulled into the product page as visible Q&A content, not only as plain FAQ links.

What is Cabinet Lock?

Cabinet Lock is furniture hardware used in cabinet and furniture manufacturing. It is selected by load rating, material, finish, and the furniture type it is installed in. We supply it for OEM/ODM bulk production with samples and datasheets on request.
