Overview

Cabinet Lock is a furniture lock that secures cabinet doors, drawers, or sliding panels, available keyed-alike or keyed-different for fleet furniture. The notes below cover construction, selection factors, sizes, materials, finishes, application fit, and installation for OEM production.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Lock Type:** Drawer lock Confirm the exact value on the order datasheet before production.
- **Cylinder Length:** 16 mm Confirm the exact value on the order datasheet before production.
- **Panel Thickness:** 12-18 mm Confirm the exact value on the order datasheet before production.
- **Cam Throw / Reach:** 180 deg cam rotation Confirm the exact value on the order datasheet before production.
- **Keying Option:** Master key system available Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Gray, Oil Rubbed Bronze, Brushed Gold, Brushed Stainless Steel and Polished Chrome Confirm finish samples when color matching matters.
- **Application fit:** Marine Furniture, Flat Pack Furniture, RTA Furniture and Custom Cabinets Match the product to the furniture use case, not only to the part name.

Cabinet Lock

Key Specifications

Lock Type	Drawer lock
Cylinder Length	16 mm
Panel Thickness	12-18 mm
Cam Throw / Reach	180 deg cam rotation
Keying Option	Master key system available
Finish	Brushed stainless
Supplied With	Cam, nut, and rosette

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Lock type: cam lock, drawer lock, sliding-door lock, or central locking
- Cabinet material and panel thickness
- Keyed-alike vs keyed-different for fleets
- Cylinder length and cam reach
- Security level and frequency of use

Material Options

Zinc die-cast bodies with brass cylinders are standard; choose higher-security cylinders for offices and lockers.
