Overview

Gang Lock is a furniture lock that secures cabinet doors, drawers, or sliding panels, available keyed-alike or keyed-different for fleet furniture. The notes below cover construction, selection factors, sizes, materials, finishes, application fit, and installation for OEM production.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Lock Type:** Cam lock Confirm the exact value on the order datasheet before production.
- **Cylinder Length:** 22 mm Confirm the exact value on the order datasheet before production.
- **Panel Thickness:** 18-25 mm Confirm the exact value on the order datasheet before production.
- **Cam Throw / Reach:** 22 mm straight cam Confirm the exact value on the order datasheet before production.
- **Keying Option:** Master key system available Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Gray, Black Nickel, Galvanized, Bronze and Copper Confirm finish samples when color matching matters.
- **Application fit:** Truck and Tool Storage, Face Frame Cabinets, Frameless Cabinets and Kitchen Cabinets Match the product to the furniture use case, not only to the part name.

Gang Lock

Key Specifications

Lock Type	Cam lock
Cylinder Length	22 mm
Panel Thickness	18-25 mm
Cam Throw / Reach	22 mm straight cam
Keying Option	Master key system available
Finish	Chrome
Supplied With	Cam, nut, and rosette

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Lock type: cam lock, drawer lock, sliding-door lock, or central locking
- Cabinet material and panel thickness
- Keyed-alike vs keyed-different for fleets
- Cylinder length and cam reach
- Security level and frequency of use

Material Options

Zinc die-cast bodies with brass cylinders are standard; choose higher-security cylinders for offices and lockers.

Buying Notes for OEM Orders

For office and institutional furniture, decide keyed-alike vs keyed-different early and order master-key sets where needed.

Related Questions

These questions are pulled into the product page as visible Q&A content, not only as plain FAQ links.

What is Cabinet Lock?

Cabinet Lock is furniture hardware used in cabinet and furniture manufacturing. It is selected by load rating, material, finish, and the furniture type it is installed in. We supply it for OEM/ODM bulk production with samples and datasheets on request.
