Overview

Lock Cylinder is a furniture lock that secures cabinet doors, drawers, or sliding panels, available keyed-alike or keyed-different for fleet furniture. This page summarizes how to specify it for volume furniture and cabinet manufacturing, including the dimensions and options that matter most to buyers.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Lock Type:** Drawer lock Confirm the exact value on the order datasheet before production.
- **Cylinder Length:** 20 mm Confirm the exact value on the order datasheet before production.
- **Panel Thickness:** 16-22 mm Confirm the exact value on the order datasheet before production.
- **Cam Throw / Reach:** Offset cam supplied Confirm the exact value on the order datasheet before production.
- **Keying Option:** Master key system available Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Galvanized, Matte Black, Anodized Aluminum, Aged Brass and Antique Brass Confirm finish samples when color matching matters.
- **Application fit:** Restaurant Furniture, Outdoor Furniture, RV Furniture and Marine Furniture Match the product to the furniture use case, not only to the part name.

Lock Cylinder

Key Specifications

Lock Type	Drawer lock
Cylinder Length	20 mm
Panel Thickness	16-22 mm
Cam Throw / Reach	Offset cam supplied
Keying Option	Master key system available
Finish	Chrome
Supplied With	Cam, nut, and rosette

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Lock type: cam lock, drawer lock, sliding-door lock, or central locking
- Cabinet material and panel thickness
- Keyed-alike vs keyed-different for fleets
- Cylinder length and cam reach
- Security level and frequency of use

Material Options

Zinc die-cast bodies with brass cylinders are standard; choose higher-security cylinders for offices and lockers.

Application Fit

Restaurant Furniture

For this application, lock cylinder is specified for the typical load, environment, and usage of this application.

Outdoor Furniture

For this application, lock cylinder is specified for corrosion resistance, stainless options, and weather exposure.

RV Furniture

For this application, lock cylinder is specified for the typical load, environment, and usage of this application.

Marine Furniture

For this application, lock cylinder is specified for the typical load, environment, and usage of this application.

Flat Pack Furniture

For this application, lock cylinder is specified for knock-down assembly, repeatable installation, and packaging efficiency.

RTA Furniture

For this application, lock cylinder is specified for tool-light assembly and consistent drilling patterns.
