Overview

Magnetic Lock is a furniture lock that secures cabinet doors, drawers, or sliding panels, available keyed-alike or keyed-different for fleet furniture. This page summarizes how to specify it for volume furniture and cabinet manufacturing, including the dimensions and options that matter most to buyers.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Lock Type:** Central locking system Confirm the exact value on the order datasheet before production.
- **Cylinder Length:** 16 mm Confirm the exact value on the order datasheet before production.
- **Panel Thickness:** 16-22 mm Confirm the exact value on the order datasheet before production.
- **Cam Throw / Reach:** 180 deg cam rotation Confirm the exact value on the order datasheet before production.
- **Keying Option:** RFID card / keypad programmable Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Matte Black, Brushed Gold, Gray, Brushed Nickel and Brushed Brass Confirm finish samples when color matching matters.
- **Application fit:** Pantry Cabinets, Corner Cabinets, Wall Cabinets and Base Cabinets Match the product to the furniture use case, not only to the part name.

Magnetic Lock

Key Specifications

Lock Type	Central locking system
Cylinder Length	16 mm
Panel Thickness	16-22 mm
Cam Throw / Reach	180 deg cam rotation
Keying Option	RFID card / keypad programmable
Finish	Brushed stainless
Supplied With	2 keys and strike plate

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Lock type: cam lock, drawer lock, sliding-door lock, or central locking
- Cabinet material and panel thickness
- Keyed-alike vs keyed-different for fleets
- Cylinder length and cam reach
- Security level and frequency of use

Material Options

Zinc die-cast bodies with brass cylinders are standard; choose higher-security cylinders for offices and lockers.

Buying Notes for OEM Orders

For office and institutional furniture, decide keyed-alike vs keyed-different early and order master-key sets where needed.

Related Questions

These questions are pulled into the product page as visible Q&A content, not only as plain FAQ links.

What is Cabinet Lock?

Cabinet Lock is furniture hardware used in cabinet and furniture manufacturing. It is selected by load rating, material, finish, and the furniture type it is installed in. We supply it for OEM/ODM bulk production with samples and datasheets on request.
