Overview

Replacement Lock Core is furniture hardware used in cabinet and furniture manufacturing, selected by load, material, finish, and fit. The notes below cover construction, selection factors, sizes, materials, finishes, application fit, and installation for OEM production.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Lock Type:** Plunger lock Confirm the exact value on the order datasheet before production.
- **Cylinder Length:** 20 mm Confirm the exact value on the order datasheet before production.
- **Panel Thickness:** 18-25 mm Confirm the exact value on the order datasheet before production.
- **Cam Throw / Reach:** Offset cam supplied Confirm the exact value on the order datasheet before production.
- **Keying Option:** Master key system available Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Black Nickel, Satin Gold, Rose Gold, Matte Black and Oil Rubbed Bronze Confirm finish samples when color matching matters.
- **Application fit:** Restaurant Furniture, Outdoor Furniture, RV Furniture and Marine Furniture Match the product to the furniture use case, not only to the part name.

Replacement Lock Core

Key Specifications

Lock Type	Plunger lock
Cylinder Length	20 mm
Panel Thickness	18-25 mm
Cam Throw / Reach	Offset cam supplied
Keying Option	Master key system available
Finish	Chrome
Supplied With	Cam, nut, and rosette

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Load and usage requirement
- Material for the environment and price point
- Finish for appearance and corrosion resistance
- Mounting and dimensional fit

Material Options

Choose the material for the load, corrosion exposure, and target price of the program.

- [Stainless Steel Replacement Lock Core](#)
- [Carbon Steel Replacement Lock Core](#)
- [Zinc Alloy Replacement Lock Core](#)
- [Aluminum Replacement Lock Core](#)
- [Brass Replacement Lock Core](#)
- [Copper Replacement Lock Core](#)

Finish Options

Finish affects appearance and corrosion performance; match it to the furniture range and market.

- [Black Nickel Replacement Lock Core](#)

- [Satin Gold Replacement Lock Core](#)
- [Rose Gold Replacement Lock Core](#)
- [Matte Black Replacement Lock Core](#)
- [Oil Rubbed Bronze Replacement Lock Core](#)
- [Stainless Steel Replacement Lock Core](#)

- [Satin Nickel Replacement Lock Core](#)

Application Fit

Restaurant Furniture

For this application, replacement lock core is specified for the typical load, environment, and usage of this application.

Outdoor Furniture

For this application, replacement lock core is specified for corrosion resistance, stainless options, and weather exposure.

RV Furniture

For this application, replacement lock core is specified for the typical load, environment, and usage of this application.

Marine Furniture

For this application, replacement lock core is specified for the typical load, environment, and usage of this application.

Flat Pack Furniture

For this application, replacement lock core is specified for knock-down assembly, repeatable installation, and packaging efficiency.

RTA Furniture

For this application, replacement lock core is specified for tool-light assembly and consistent drilling patterns.

Recommended for These Applications
