Overview

Table Glide is furniture hardware used in cabinet and furniture manufacturing, selected by load, material, finish, and fit. This page summarizes how to specify it for volume furniture and cabinet manufacturing, including the dimensions and options that matter most to buyers.

Industry Data

Use these product signals to compare fit, specification risk, and sourcing options before requesting samples or bulk pricing.

- **Load Capacity:** 300 kg per set Confirm the exact value on the order datasheet before production.
- **Mounting Pattern:** Bed rail hook plate Confirm the exact value on the order datasheet before production.
- **Height / Size:** 120 mm Confirm the exact value on the order datasheet before production.
- **Material:** Zinc-plated steel Confirm the exact value on the order datasheet before production.
- **Adjustment:** Leveling foot Confirm the exact value on the order datasheet before production.
- **Material options:** Stainless Steel, Carbon Steel, Zinc Alloy, Aluminum and Brass Choose material by strength, corrosion exposure, and target price.
- **Finish options:** Flat Black, Copper, Bronze, Gray and Zinc Plated Confirm finish samples when color matching matters.
- **Application fit:** Shoe Cabinets, TV Cabinets, Bookcases and Wine Cabinets Match the product to the furniture use case, not only to the part name.

Table Glide

Key Specifications

Load Capacity	300 kg per set
Mounting Pattern	Bed rail hook plate
Height / Size	120 mm
Material	Zinc-plated steel
Adjustment	Leveling foot
Supplied With	Hardware set per furniture unit

Specifications are configurable for OEM/ODM orders. Exact values are confirmed on the datasheet for your order.

How to Choose

- Load and usage requirement
- Material for the environment and price point
- Finish for appearance and corrosion resistance
- Mounting and dimensional fit

Material Options

Choose the material for the load, corrosion exposure, and target price of the program.

- [Stainless Steel Table Glide](#)
- [Carbon Steel Table Glide](#)
- [Zinc Alloy Table Glide](#)
- [Aluminum Table Glide](#)
- [Brass Table Glide](#)
- [Copper Table Glide](#)

Finish Options

Finish affects appearance and corrosion performance; match it to the furniture range and market.

- [Flat Black Table Glide](#)
- [Copper Table Glide](#)
- [Bronze Table Glide](#)

- [Gray Table Glide](#)
- [Zinc Plated Table Glide](#)
- [Brushed Stainless Steel Table Glide](#)

Application Fit

[Shoe Cabinets](#)

For this application, table glide is specified for the typical load, environment, and usage of this application.

[TV Cabinets](#)

For this application, table glide is specified for the typical load, environment, and usage of this application.

[Bookcases](#)

For this application, table glide is specified for the typical load, environment, and usage of this application.

[Wine Cabinets](#)

For this application, table glide is specified for the typical load, environment, and usage of this application.

[Laundry Cabinets](#)

For this application, table glide is specified for the typical load, environment, and usage of this application.

[Garage Storage Cabinets](#)

For this application, table glide is specified for the typical load, environment, and usage of this application.

Buying Notes for OEM Orders

For OEM production, lock the configuration, finish, and packaging, then confirm volume pricing.

Request Bulk Pricing

Send your specification, target market, and order volume. Our engineers reply with pricing, samples, and datasheets — usually within one business day.

Request a Quote

Tell us your project requirement. Our engineers reply within one business day with bulk pricing, datasheets, and installation drawings.
